ERRATA #5

3 Apr 1998

Specific Instructions and Errata for
Nonresident Training Course

QUARTERMASTER 3 & 2

1. This errata supersedes all previous errata. No attempt has been made to issue corrections for errors in typing, punctuation, etc., which are obvious and do not affect the student's ability to answer the questions.
2. To obtain credit for deleted questions, show this errata to your local course administrator (ESO/scorer). The local course administrator (ESO/scorer) is directed to correct the answer key for this course by indicating the questions deleted.
3. Delete the following questions and write "Deleted" across all four boxes for each question.

<u>Questions</u>	<u>Questions</u>	<u>Questions</u>
1-30	6-7	9-34
1-31 through 1-35	6-16	9-40
2-9	6-18	9-54
2-24	6-37	9-64
2-42	6-41	10-7
2-44	6-47	10-12
2-46	6-51 through 6-52	10-28
3-8	6-62	10-30
3-13	6-66	10-32
3-29	6-68 through 6-71	10-36

5-72	9-27	

PREFACE

By enrolling in this self-study course, you have demonstrated a desire to improve yourself and the Navy. Remember, however, this self-study course is only one part of the total Navy training program. Practical experience, schools, selected reading, and your desire to succeed are also necessary to successfully round out a fully meaningful training program.

COURSE OVERVIEW: Upon completion of this course, you will demonstrate knowledge of the phases of watchstanding, log keeping, honors and ceremonies. You will have a basic knowledge of piloting, time, navigational aids, supply and maintenance, radiotelephone communications, maneuvering board, and electronic and celestial navigation.

THE COURSE: This self-study course is organized into subject matter areas, each containing learning objectives to help you determine what you should learn along with text and illustrations to help you understand the information. The subject matter reflects day-to-day requirements and experiences of personnel in the rating or skill area. It also reflects guidance provided by Enlisted Community Managers (ECMs) and other senior personnel, technical references, instructions, etc., and either the occupational or naval standards, which are listed in the *Manual of Navy Enlisted Manpower Personnel Classifications and Occupational Standards*, NAVPERS 18068.

THE QUESTIONS: The questions that appear in this course are designed to help you understand the material in the text.

VALUE: In completing this course, you will improve your military and professional knowledge. Importantly, it can also help you study for the Navy-wide advancement in rate examination. If you are studying and discover a reference in the text to another publication for further information, look it up.

Sailor's Creed

“I am a United States Sailor.

I will support and defend the Constitution of the United States of America and I will obey the orders of those appointed over me.

I represent the fighting spirit of the Navy and those who have gone before me to defend freedom and democracy around the world.

I proudly serve my country's Navy combat team with honor, courage and commitment.

I am committed to excellence and the fair treatment of all.”

QUARTERMASTER -Table of Contents, Continued

CHAPTER 1— INTRODUCTION TO NAVIGATION

•	Origins and Primary Areas of Navigation	1-3
•	Problems Associated with Navigation	1-6
•	Earth and the Terrestrial Coordinate System	1-8
•	Reference Lines on Earth	1-9
•	Nautical Chart Interpretation	1-13
•	Chart Scale	1-16
•	Chart Accuracy	1-17
•	Latitude and Longitude	1-18
•	How to Measure Distance	1-19
•	How to Determine or Plot Direction on a Chart	1-20
•	How to Plot a Position	1-21
•	How to Extract Latitude and Longitude from a Known Position	1-22
•	Defense Mapping Agency	1-23
•	DMA Stock Numbering System	1-25
•	The Nautical Chart Numbering System	1-26
•	Chart Correction System	1-28
•	Chart Card Maintenance	1-33
•	Chart Correction Techniques	1-35
•	Chart Ordering System	1-37
•	Ordering, Labeling, and Stowing Charts	1-38

CHAPTER 2— COMPASSES

•	The Magnetic Compass	2-2
•	Earth's Magnetic Field and Magnetism	2-3
•	Compass Components, Types, and Operation	2-7
•	Magnetic Compass Error	2-9
•	The Shipboard Degaussing System	2-12
•	Magnetic Compass Adjustment	2-13
•	The Gyrocompass	2-19
•	Tools Used to Determine and Plot Direction	2-20
•	Gyrocompass Error	2-23
•	Magnetic Compass Record Book	2-18
•	How to Determine Gyro Error	2-32

QUARTERMASTER -Table of Contents, Continued

CHAPTER 3— NAVIGATIONAL PUBLICATIONS

• Navigational Publication Quick Reference Guide	3-2
• Coast Pilots	3-5
• Fleet Guides	3-5
• Sailing Directions	3-6
• List of Lights	3-8
• Tide Tables and Tidal Current Tables	3-8
• Pilot Charts	3-8
• World Port Index	3-10
• Distances Between Ports	3-10
• Almanacs	3-11
• Sight Reduction Tables	3-11
• Publication Correction and Ordering	3-12

CHAPTER 4— THE NAUTICAL ROAD

• Navigational Lights	4-3
• How to Use the Light List	4-5
• Characteristics of Lighted Aids to Navigation	4-6
• Visibility of Lights	4-8
• Types of Lights and Structures	4-14
• Sector Lights	4-21
• Buoys	4-24
• Buoyage Systems	4-28
• The United States System of Aids to Navigation	4-30
• Rules of the Road	4-39
• Maneuvering and Warning Signals	4-44

CHAPTER 5— BASICS OF TIME

• Apparent Time and Mean Solar Time	5-3
• Definition of Terms	5-5
• Standard Time Zones	5-6
• The Relationship Between Time and Longitude	5-7
• How to Convert Arc to Time Using <i>The Nautical Almanac</i>	5-10
• How to Convert Time	5-11
• Time and Date for Ships at Sea	5-13
• Timepieces	5-14
• Chronometer Error	5-15

QUARTERMASTER -Table of Contents, Continued

CHAPTER 5— BASICS OF TIME, continued

- Documenting Chronometer Error 5-17
- How to Determine Daily Rates 5-18
- Timing Celestial Observations 5-19

CHAPTER 6— INTRODUCTION TO CELESTIAL NAVIGATION

- Earth and the Celestial Sphere 6-2
- Understanding the Celestial Coordinate System 6-3
- Using *The Nautical Almanac* 6-5
- How to Determine the Time of Sunrise, Sunset, and Twilight 6-6
- How to Determine the Time of Moonrise and Moonset 6-8
- How to Determine Selected Stars Using Pub 249 6-9
- How to Determine Selected Stars Using *The Rude Starfinder* 6-12

CHAPTER 7— TIDES AND CURRENTS

- Effect of the Sun and Moon on Tides 7-4
- Types of Tides and Reference Planes 7-5
- Tide Tables 7-6
- How to Determine the Height of Tide 7-7
- How to Graph Tide Data 7-12
- Tidal Currents 7-16
- Tidal Current Tables 7-18
- Current Calculations 7-19
- How to Graph Tidal Currents 7-23

CHAPTER 8— DEAD RECKONING, PILOTING, AND ELECTRONIC NAVIGATION

- The DR Plot 8-3
- Terms Associated with the DR Plot 8-4
- Time, Speed, and Distance 8-5
- Using the Nautical Slide Rule 8-7
- Practice Time, Speed, and Distance Problems 8-8
- Example DR Plot 8-10
- Labeling the DR Plot 8-11
- Plan of Intended Movement (PIM) 8-12
- Plotting Instruments 8-13
- Plotting Techniques 8-15

QUARTERMASTER -Table of Contents, Continued

CHAPTER 8— DEAD RECKONING, PILOTING, AND ELECTRONIC NAVIGATION, continued

• Labeling the Course Line	8-17
• Piloting	8-18
• Lines of Position and Fixes	8-20
• Determining the Ship's Position Using True Bearings	8-21
• Determining the Ship's Position Using Relative Bearings	8-22
• The Marine Sextant	8-24
• Determining the Ship's Position Using Sextant Angles	8-33
• Determining the Ship's Position by Running Fix	8-39
• Using the Fathometer	8-41
• Loran Time Difference Lines	8-43
• Satellite Navigation Systems	8-44
• Navigational Radar	8-49
• Other Electronic Navigation Equipment	8-53

CHAPTER 9— CELESTIAL OBSERVATIONS AND SIGHT REDUCTION METHODS

• Methods For Finding Gyrocompass Error	9-2
• Azimuth of the Sun	9-3
• Azimuth by Polaris	9-11
• Amplitude of the Sun	9-12
• The Celestial LOP	9-17
• Altitude Corrections	9-19
• How to Reduce a Sunline Using Pub 229	9-24
• Plotting One or More LOPs	9-28
• Reducing Stars, Planets, and the Moon Using Pub 229	9-31
• Reducing Sights Using Pub 249	9-32
• Latitude by Local Apparent Noon (LAN)	9-36

CHAPTER 10— WEATHER OBSERVATION

• The Atmosphere	10-3
• Circulation of the Wind Upon Earth	10-4
• Cloud Formations	10-6
• Cloud Characteristics	10-8
• Atmospheric Pressure	10-11
• Pressure Areas	10-13
• Frontal Systems	10-15

QUARTERMASTER -Table of Contents, Continued

CHAPTER 10— WEATHER OBSERVATION, continued

- Wind 10-19
- Temperature, Dew Point, and Relative Humidity 10-26
- Weather Observation and Reporting 10-32

CHAPTER 11— THE SHIP’S BRIDGE

- Bridge Equipment 11-3
- Ship’s Characteristics 11-7
- Steering the Ship 11-11
- Navigational Lights 11-15
- External Communications 11-19
- Bridge Watch Personnel 11-21
- Relieving the QMOW 11-25
- Commanding Officer’s Night Order Book 11-26
- The Ship’s Deck Log 11-27
- General Duties of the QMOW 11-34

CHAPTER 12— VOYAGE PLANNING

- Planning and Constructing Great Circle Tracks 12-2
- Planning and Constructing Coastal Tracks 12-6
- Planning and Constructing Restricted Water Tracks 12-7
- Constructing Turn Bearings 12-8
- Constructing Danger Bearings 12-10
- Precision Anchoring 12-13
- Navigation Brief 12-21
- Departing Port 12-22
- Entering Port 12-25

INDEX INDEX-1

INSTRUCTIONS FOR TAKING THE COURSE

ASSIGNMENTS

The text pages that you are to study are listed at the beginning of each assignment. Study these pages carefully before attempting to answer the questions. Pay close attention to tables and illustrations and read the learning objectives. The learning objectives state what you should be able to do after studying the material. Answering the questions correctly helps you accomplish the objectives.

SELECTING YOUR ANSWERS

Read each question carefully, then select the BEST answer. You may refer freely to the text. The answers must be the result of your own work and decisions. You are prohibited from referring to or copying the answers of others and from giving answers to anyone else taking the course.

SUBMITTING YOUR ASSIGNMENTS

To have your assignments graded, you must be enrolled in the course with the Nonresident Training Course Administration Branch at the Naval Education and Training Professional Development and Technology Center (NETPDTC). Following enrollment, there are two ways of having your assignments graded: (1) use the Internet to submit your assignments as you complete them, or (2) send all the assignments at one time by mail to NETPDTC.

Grading on the Internet: Advantages to Internet grading are:

- you may submit your answers as soon as you complete an assignment, and
- you get your results faster; usually by the next working day (approximately 24 hours).

In addition to receiving grade results for each assignment, you will receive course completion confirmation once you have completed all the

assignments. To submit your assignment answers via the Internet, go to:

<http://courses.cnet.navy.mil>

Grading by Mail: When you submit answer sheets by mail, send all of your assignments at one time. Do NOT submit individual answer sheets for grading. Mail all of your assignments in an envelope, which you either provide yourself or obtain from your nearest Educational Services Officer (ESO). Submit answer sheets to:

COMMANDING OFFICER
NETPDTC N331
6490 SAUFLEY FIELD ROAD
PENSACOLA FL 32559-5000

Answer Sheets: All courses include one “scannable” answer sheet for each assignment. These answer sheets are preprinted with your SSN, name, assignment number, and course number. Explanations for completing the answer sheets are on the answer sheet.

Do not use answer sheet reproductions: Use only the original answer sheets that we provide—reproductions will not work with our scanning equipment and cannot be processed.

Follow the instructions for marking your answers on the answer sheet. Be sure that blocks 1, 2, and 3 are filled in correctly. This information is necessary for your course to be properly processed and for you to receive credit for your work.

COMPLETION TIME

Courses must be completed within 12 months from the date of enrollment. This includes time required to resubmit failed assignments.

PASS/FAIL ASSIGNMENT PROCEDURES

If your overall course score is 3.2 or higher, you will pass the course and will not be required to resubmit assignments. Once your assignments have been graded you will receive course completion confirmation.

If you receive less than a 3.2 on any assignment and your overall course score is below 3.2, you will be given the opportunity to resubmit failed assignments. **You may resubmit failed assignments only once.** Internet students will receive notification when they have failed an assignment--they may then resubmit failed assignments on the web site. Internet students may view and print results for failed assignments from the web site. Students who submit by mail will receive a failing result letter and a new answer sheet for resubmission of each failed assignment.

COMPLETION CONFIRMATION

After successfully completing this course, you will receive a letter of completion.

ERRATA

Errata are used to correct minor errors or delete obsolete information in a course. Errata may also be used to provide instructions to the student. If a course has an errata, it will be included as the first page(s) after the front cover. Errata for all courses can be accessed and viewed/downloaded at:

<http://www.advancement.cnet.navy.mil>

STUDENT FEEDBACK QUESTIONS

We value your suggestions, questions, and criticisms on our courses. If you would like to communicate with us regarding this course, we encourage you, if possible, to use e-mail. If you write or fax, please use a copy of the Student Comment form that follows this page.

For subject matter questions:

E-mail: n314.products@cnet.navy.mil
Phone: Comm: (850) 452-1001, Ext. 1826
DSN: 922-1001, Ext. 1826
FAX: (850) 452-1370
(Do not fax answer sheets.)
Address: COMMANDING OFFICER
NETPDTC N314
6490 SAUFLEY FIELD ROAD
PENSACOLA FL 32509-5237

For enrollment, shipping, grading, or completion letter questions

E-mail: fleetservices@cnet.navy.mil
Phone: Toll Free: 877-264-8583
Comm: (850) 452-1511/1181/1859
DSN: 922-1511/1181/1859
FAX: (850) 452-1370
(Do not fax answer sheets.)
Address: COMMANDING OFFICER
NETPDTC N331
6490 SAUFLEY FIELD ROAD
PENSACOLA FL 32559-5000

NAVAL RESERVE RETIREMENT CREDIT

If you are a member of the Naval Reserve, you may earn retirement points for successfully completing this course, if authorized under current directives governing retirement of Naval Reserve personnel. For Naval Reserve retirement, this course is evaluated at 21 points. Those points will be credited as follows:

12 points for the satisfactory completion of assignments 1 through 8.

9 points for the satisfactory completion of assignments 9 through 14.

(Refer to *Administrative Procedures for Naval Reservists on Inactive Duty*, BUPERSINST 1001.39, for more information about retirement points.)

CHAPTER 1

Introduction to Navigation

Introduction

In this chapter, you will be introduced to the world of navigation. As a Quartermaster, you will be engaged in many aspects of navigation. As you will learn, navigation is known as both an *art* and a *science*. Don't be put off by the science end though, a basic knowledge of mathematics will suffice your needs. There is no feeling that compares to knowing that you are part of a team that **safely** navigates a ship and her crew across vast expanses of ocean.

You will be a highly visible member of the ship's crew, after all, your work station is on the bridge. The bridge is where the captain spends most of his or her time under way. The bridge is where the orders are given for the ship to carry out her mission. QMs traditionally maintain the highest standards of **grooming, pride, and professionalism**. You will become the trusted assistant of the navigator, bridge watch officers, and the captain.

Objectives

The material in this chapter will enable the student to:

- Describe a dead reckoned track.
- Describe the Terrestrial Coordinate System.
- Measure distance on a Mercator projection chart.
- Interpret chart symbology.
- Plot and extract positions on a chart.
- Plot direction on a chart.
- Determine chart accuracy.
- Find charts using DMA Hydrographic catalog.
- Describe the Chart Correction System and correct charts from *Notice to Mariners*.
- Order, label, and stow charts.
