CHAPTER 1
INTRODUCTION

SECTION I. GENERAL INFORMATION

1.1. SCOPE

b. Model Number and Equipment Name. The official nomenclature is the AN/VIC-3(V) Intercommunication Set, with its common name being the Vehicular Intercommunication System (VIS). There are many current and future variations of this system designed for specific vehicles and/or platforms, each with its own unique technical bulletin for installation. The first vehicle/platform is designated the AN/VIC-3(V)1, the second is designated AN/VIC-3(V)2, and so on, with their corresponding technical bulletins designated TB 11-5830-263-20-1, TB 11-5830-263-20-2, and so on. These vehicle/platform specific variations have meaning only to the installation team as the system loses its identity when installed. Any vehicle/platform that has this system installed is referred to as having the VIS or "VIC-3" (AN/VIC-3(V).

c. Purpose of Equipment: The AN/VIC-3(V) Intercommunication Set, hereinafter referred to as VIS, is an intercommunication and radio-control system designed for ground mobile combat vehicles. Digital audio enhances speech quality and intelligibility. Headsets that incorporate active noise reduction (ANR) circuitry increase the effectiveness of vehicle communications. They offer increased hearing protection in the noisy environment of combat vehicles.

1.2. CONSOLIDATED INDEX OF ARMY PUBLICATIONS AND BLANK FORMS

Refer to latest issue of DA Pam 25-30 to determine whether there are new editions, changes, or additional publications pertaining to the equipment.

1.3. MAINTENANCE FORMS, RECORDS, AND REPORTS

Reports of Maintenance and Unsatisfactory Equipment. Department of the Army forms and procedures used for equipment maintenance will be those prescribed by DA PAM 738-750 as contained in Maintenance Management Update.
